

Only from Nemco!

The Fresh-O-Matic by Nemco

Instantly deliver all the freshness and flavor to your precooked and frozen foods with one simple push of a button!

Flavor! Full Steam Ahead!

Instantly thermalize your precooked and frozen baked goods, meats, seafood, veggies, pasta and more with the reliable and super easy-to-use Fresh-O-Matic by Nemco!

Expand the Window on Freshness

When it comes to food quality, you just can't beat fresh-made. But with the Fresh-O-Matic by Nemco, you can match it. That's because the Fresh-O-Matic uses super-hot steam—hotter than 212°F—to instantly return moist heat to cold, precooked, even day-old foods!

- Meats regain their just-sliced texture and juiciness.
- Buns and baked goods get their fresh-from-the-oven rise, flakiness and flavor.
- Refrigerated precooked vegetables are heated and bursting with garden fresh flavor and color in seconds.

Turn the Novice into an Expert

Because the Fresh-O-Matic is so easy to operate, thermalizing or rethermalizing foods to their original chef-prepared greatness is something anyone can do.

- Just plug it in and add distilled water—no special wiring is required.
- Illuminated power, heater and water-level indicators are easy to see and interpret.
- Fast and so very easy—just push the button to actuate and deliver precisely the right measure of steam.

Rely on Superior Durability

If it has “by Nemco” on the end of its name, you know it's built to deliver a long life-cycle for maximum return on your investment.

- Heavy-duty, stainless steel outer wrap stands up to the most demanding kitchen environments.
- Compact, portable design requires very little space or attention—fits just about anywhere on the kitchen counter.
- Extra features, such as the WearGuard™ coated tray liner, promise lasting performance and make it easy to perform a thorough cleanup.

Suggested Uses

There isn't enough space here to cover it all. The Fresh-O-Matic by Nemco can heat, refresh and serve hundreds of piping hot foods, from blueberry muffins, to beef stew, to Mexican burritos, to lobster dinners. You name it. If it's leftover or frozen, it can taste like it's freshly cooked once again.
