Roll-A-Grill

**BUTTER SPREADER
MODEL NO.
RS-1**

*End Butter
Brush Waste*

- **Greater Capacity** - Holds over a pound of butter!
- **Sturdy** - One piece casting of aluminum.
- **Handsome** - Greater customer appeal. Throw away that brush or greasy knife.
- **Faster** - More economical tool!
- **Heated** - Just slip in the cartridge type heating element and plug in (110 volt). No thermostat needed. Gives steady low heat to keep spread melted at the right temperature.

| Model No. | Dimensions | | | Watts | Volts | Cap-acity | Wire Cord | Ship Wt.(lb) |
|-----------|------------|----|------|-------|-------|-----------|-----------|--------------|
