TVES10SC

TV-Series

Low Profile, Electric, Convection Oven

TVES/10SC shown with optional casters

□ TVES/10SC

Standard Features

- 7.5kW high efficiency heating elements
- · Available in standard depth
- Single deck TruVection oven is 27-1/4" in height
- Stainless steel front, sides and top
- Dependent 2-piece glass doors (Full 180° opening)
- Energy saving high efficiency glass windows
- Heat keeping dual door seal system
- Coved, porcelain interior
- Stay cool heavy duty door handle.
- Two speed, 1/2 hp, fan motor
- 5-position rack guides and 3 chrome plated oven racks
- Solid state temperature controls
- Forced cool down fan mode
- Oven "heat" light cycles with burners
- Interior oven lights
- Platinum modular equipment or Heavy Duty Counterline units can sit on single electric range modular deck.
- Overlapping range tops require an additional add-on cabinet. (See spec sheet TVES/30SC for stacked TruVection units)

Available Control

SC-Standard Controls

 150°F to 550°F solid state thermostat and 60 minute mechanical cook timer.

OPTIONS & ACCESSORIES AT ADDITIONAL COST

26" stainless steel legs

- Casters 4" or 6"
- Marine edge top
- Swivel Caster front with locks
- Export crating
- Extra oven racks
- Stainless steel dirt tray
- D Bottom, roller bearing, sliding rack

CONSTRUCTION SPECIFICATIONS

Exterior Finish: Stainless steel front, sides and top.

List the voltage, frequency, and amps

VAC, Phase,

(see utility information).

□ Stainless steel solid door

12" stainless steel legs

Doors: Dependent doors with windows. Low emission glass, stainless steel construction, heavy-duty welded steel frame and 5/8" diameter full-length hinge pin.

Hz.

Oven Interior: Porcelain enamel finish, coved, fastener free.

Rack and Rack Guides: Heavy-duty removable wire rack guides spaced on 1-5/8" centers offer 5 different rack positions. Three wire racks provided with each oven.

Blower Motor: 1/2hp, 2-speed motor, 1710/1120 r.p.m

Oven Heating: Oven heating is regulated by an adjustable thermostat control. Blower fan circulates air within the cavity "scrubbing" heat to the oven interior for even heat distribution within the cavity.

Note: Oven cannot be operated without fan in operation.

Control PaneI: Located on front, at right side of oven, away from heat zone. Removable panel pulls out for easy servicing.

Interior Lights: Two 40 watt temperature recessed lamps located within the oven cavity.

Legs: 6" stainless steel legs standard.

Electrical System: Terminal connections are located below oven section and are accessible from the front of the oven. These sheath type electrical heating elements located at the rear of the oven function as a single heating unit with a combined rating of 7.5 kW. Available voltages include 208. 240, 380, and 480 VAC single or three phase, 50/60 Hz. Ovens equipped with 480VAC single or three phase heating elements use 240V controls and motors and do not require separate electrical lead wires.
